

ERA-NET PathoGenoMics training and career development workshop

2005-06-22

A training and career options workshop will take place in Vienna on 27-28 June 2005, in order to build a specific European career route for scientists in microbial pathogenomic research.

The event aimed at scientists in the field of Pathogenomics of microorganisms will take place at the Hotel Modul, Vienna, Austria.,The purpose of the workshop is to establish an organized programme for training & career options for researchers of bacterial and fungal genome.

This initiation is part of the ERA-NET Pathogenomics actions, designated to advance this field of research.
